---

## **CAREER OBJECTIVE:**

Computer Science Engineering student specializing in AI & Data Science with strong interest in Full Stack Development, Data Analytics, and AI-driven applications. Skilled in Python, SQL, HTML/CSS, GitHub, and problem-solving with hands-on experience through hackathons, internships, and academic projects. Passionate about building scalable applications and learning modern technologies.

---

## **EDUCATION QUALIFICATION:**

- B.Tech CSE (AI & DS) — Takshashila University — 7.02 CGPA
- Intermediate (MPC) — Sri Chaitanya Jr College — 70.4%
- SSC — ZP High School — 8.7 GPA

---

## **TECHNICAL SKILLS:**

- Languages: Python, SQL, JavaScript (Basics)
- Frontend: HTML, CSS, React.js (Basics), Next.js (Basics)
- Database: MySQL
- Tools & Platforms: GitHub, VS Code, Bubble.io
- Data & AI: Pandas, NumPy, Scikit-learn, Excel
- Concepts: OOPs, DBMS, Problem Solving

---

## **CERTIFICATIONS:**

Data Analysis Using Python | Python Using AI Workshop | Stock Market Using AI Workshop | No Code Web App Development with Bubble.io | IBM Data Analysis with Python | IBM Python 101 for Data Science

---

## **INTERSHIPS:**

- Android Developer Virtual Internship (EduSkills)
- Virtual Internship Program In Python Programming
- AI Deployment & Automation Internship (EduSkills)

---

## **HACKATHONS & TECHNICAL PARTICIPATION:**

- Smart India Hackathon (SIH) 2025
- National Level 24-Hour Hackathon – Sri Manakula Vinayagar Engineering College (SMVEC)
- XEcanclave 24-Hour Hackathon by Xebia

---

## **PROJECTS**

### **AI-Driven Smart Billing System With Integrated Chatbot Assistance**

- Developed an AI-based billing and customer interaction system with chatbot assistance.
- Improved automation of billing workflows and customer support handling.
- Focused on user-friendly interaction and efficient transaction management.

### **Smart Attendance Proxy Resistance System**

- Designed an AI-powered attendance authentication system to reduce proxy attendance.
- Implemented authentication and monitoring concepts for secure attendance management.
- Improved reliability and transparency in attendance tracking.

### **Travel App Development For Kerala**

- Built a tourism support application during Smart India Hackathon.
- Designed features for travel guidance, tourist assistance, and location-based support.
